SUMMARY

I'm an enthusiastic programmer who has been doing competitive programming at the first stage of my university. In the time of exploring 'web development', I have loved it and continue in web development. I have 2+ years of learning experience in javascript and its related tools and technologies specially frontend.

SKILLS

Languages : **Javascript, Typescript, C++, HTML, CSS, C, Java**

Frameworks and Tools : **React, NextJs, SASS, MaterialUI, Bootstrap, Git**

Also familiar with : **Nodejs, ExpressJs, MongoDB, React-Native, TailwindCSS**

PROJECTS

E-Commerce App - [\[Github\]](#) [\[Live\]](#)

Tech Stack: **React, MaterialUI**

- Mainly focused on API. The overall data is handled by [CommerceJs](#), which is a headless CMS system and they give so many APIs to integrate E-Commerce applications .
- Tried to implement the simple authentication, cart and payment system with the help of API and stripe.
- NextJs as a react framework is mainly used for file based routing systems. Handled state with useState and useContext hooks.
- Used Material UI for design. Tried to add almost every necessary component of the MUI framework.
- In this project, I have mainly focused on functionality of the application.

Student Management - CRUD App - [\[Github\]](#)

Tech Stack: **React, ExpressJs, MongoDB**

- Basic CRUD system implemented with react and nodejs.
- Express as backend and mongodb as database system.
- Bootstrap for design

EDUCATION

Comilla University, Cumilla,- *B.Sc. Engineering in ICT*

January 2019 - Present

Completed 6 out of 8 semester.

PROBLEM SOLVING SKILLS

[Codeforces](#) - Solved 300+ problems and participated in 40+ contests

[Leetcode](#) - Solved 50+ problems with specified data structure and algorithm.

Others - Solved problems in codechef, atcoder, hackerrank, lightOJ, codewars, dimikOJ and participated in 5+ onsite contests.
