SUMMARY

Creating web applications using Javascript and its numerous related technologies is my passion. I have been developing in Javascript for the past 3+ years. My goal is to always design intuitive and minimalistic web applications.

EDUCATION

COMILLA UNIVERSITY   **Cumilla, Chittagong, Bangladesh**

B.Sc. Engineering in Information and Communication Technology(ICT)   *2019-present*

SKILLS

Core : React, NextJs, Sass/SCSS, MaterialUI, TailwindCSS, Bootstrap, Git
Languages : HTM, CSS, Javascript, Typescript, C, C++, Java
Familiar with : React-Native, Nodejs, ExpressJs, MongoDB, Angular

PERSONAL PROJECTS

Own Portfolio Site - [**Github**] [**Live**]

Tech Stack: **Nextjs, Typescript, Material UI**

- Developed the website in a structured way.
- Implemented minimalistic and accessible UI using Material UI.
- Implemented modern web features such as Dark Mode, Animations, and SEO.

E-Commerce App - [**Github**] [**Live**]

Tech Stack: **NextJs, MaterialUI, CommerceJs**

- Integrated server less backend using CommerceJs API to handle products, orders, and customers.
- Integrated payment processing using Stripe.
- Implemented NextJs's file routing system for optimal routing performance and functionality.
- Implemented frontend components from Material UI's component library.

Chat Room - [**Github**]

Tech Stack: **React, NodeJs, ExpressJs, Socket.io**

- Implemented real time data sharing using **Socket.io.**
- Implemented CORS policies based on best practices.
- Separated data sharing by room.

PROBLEM SOLVING SKILLS

Codeforces - Solved 300+ problems and participated in 40+ contests
Leetcode - Solved 50+ problems with specified data structure and algorithm.
Also participated in 5+ onsite contests and solved problems in codechef, atcoder, hackerrank, lightOJ, codewars.
